

INTERNATIONAL ORGANIZATION OF WOMEN PILOTS

ALL-OHIO 99 NEWS

Above L: members attending the April meeting at JPs Ribs in the party room: Debra Henrichs, Esther Kotyk, Claire Gerber, Linda Blodgett, Chris Creamer, Roberta Jones, and Kay Johnson. Kathy Samuelson is in a separate photo to the right, as she was taking our picture. Lower left: Members gathered at the home of Ann Samuelson's daughter for Ann's 80th birthday party. Until she moved to Missouri, Ann was chairwoman of our chapter and very active in all of our activities. In fact, she laid out many compass roses and helped us paint them, flew her own plane, and organized many Buckeye Air Rallies.

This newsletter is coming out too early to have received the new member list from international. **MEETINGS:** It's great practice to fly approaches for the upcoming meeting. The May 1st meeting will be at Peg Ballou's hangar at Bucyrus Airport. Details are inside this newsletter. Peg has a flight simulator there. Bring your suit (or not) and a big appetite to the pool party/ pot luck in Bellville on June 12. On July 10 we will meet at Bolton Field, along with the Scioto Valley Chapter for an up-date on the old CMH tower which is being restored into a museum.

**May 1st meeting of the All-Ohio 99s at 17G Bucyrus
2254 Isaac Beal Road, Bucyrus 419-562-7596**

Students: You can fly to Bucyrus and bring your instructor too!

From hostess Peg Ballou, CFII,

“The term “Mayday” means something oddly different to pilots. Hopefully, this meeting on May 1 will not be a “Mayday” situation.

Fly into 17G via the usual means, or drive per your Google maps app. I’m sure you are all nice and techie and can follow that.

Otherwise, the airport is southeast of Bucyrus. Park in the general ramp area near the FBO to the north end of the airport, a short walk from the Ballou Skies hangar, the south most long hangar. The brown door with an oval window is the Ballou Skies portal to aviation wonder and excitement.

Arrive somewhere between 11:30 and 12 noon for a gabfest and prepare for a lunch that includes creamed pheasant over biscuits, salad, ad dessert.

Our planeside entertainment will be a presentation from Lisa Blair and Claire Gerber on the CAP (Civil Air Patrol) with which they are involved.

The hangar is apt to be slightly chilly, depending on the weather, so dress in appropriate layers.

Anyone needing an instrument approach for currency is welcome to use the PFC CR-12 AATD simulator in Peg’s office.

The Cessna 150 engine is soon to be installed and if back at the hangar, you may even get a glimpse of the new 40K engine. A quarter to touch, but looking is free. Text or call Peg with questions. 419-563-6899. “
